Tartous, Baniyas

EDUCATION

2021-2025

SYRIAN VIRTUAL UNIVERSITY SVU

- Master in web science, information Technology

may 2023_oct 2023

SHAI CLUB FOR ARTIFICIAL INTELLIGENCE

- Python, Data Analysis, Machine learning, Deep learning

2014_2020

TISHREEN UNIVERSITY

- Bachelor of Informatics engineering

SKILLS

- Python
- Data Analysis
- Machine learning
- Deep learning
- Docker
- Java script
- SQL

PROFILE

I am a Master's student in web sciences at the syrian virtual university, seeking an opportunity to work as a junior Data scientist or in another IT-related field. I am flexible, a fast learner, and dedicated to enhancing my technical and analytical skills to prepare myself for the job market. My Passion for the field of Data science drives me to contribute actively to data analysis and problem _ solving through innovative solutions.

WORK EXPERIENCE

Advanced machine learning course 2025 (8 MONTHS)

- Develop and build AI project from collect data and make preprocessing, training models, fine tuning to deployment and track experiments with mlflow and create web project to see the results.

Junior Database administrator 2024 (1 year)

- Check the status of VPS windows server for update the system and other programs
- dealing with docker and update its images
- make daily backup for data and schema for supabase instance

Intern Data scientist 2023 (3 MONTHS)

- dealing with dataset from kaggle, make preprocessing, training models, save model for predict

web development coach at GOPA-DERD 2021_2022 (9 MONTHS)

- teach html, css, js with exercises
- make simple website as final project
